JONES K MBINDYO

I have over four years of experience building scalable, user-friendly, client-driven mobile applications in a fast-paced ecosystem with modern technology. I have a proven ability to lead and collaborate with both technical and business teams in formulating software requirements and setting deliverables.

EXPERIENCE

Android Engineer- Hillcroft Technologies Ltd (mTek Services), *Nairobi*
August 2022 - PRESENT
I work closely with Senior Engineers and the engineering manager to identify gaps in the company's products, re-engineer existing codebase, and make system suggestions as well as build new products and maintain the existing applications.

Software Engineer- Extra Inch Technology Ltd, *Nairobi*
April 2021 - July 2022 (1 years 4 months)
I specialized in building financial solutions for micro-finance, Saccos, and Banks. My expertise ranged from developing customer-centered mobile banking (Android) applications and providing client technical support. I also served as a Technical recruiter during my last 3 months in the company to ensure proper onboarding for new hires.

Junior Android Engineer - EldoHub, *Eldoret*
January 2021 - March 2021 (3 months)
Led mobile application development process and delivered progress reports as well as planning, designing, and developing user flow for mobile stack (UI).

Full-Stack Software Developer - Freelancer**, *Remote*
January 2018 - December 2020 (3 years)
I was responsible for the overall development and implementation of the front end and back end. My responsibilities also extended from designing system architecture to high-level programming, API integration, web scraping, data analysis, & data visualization.
